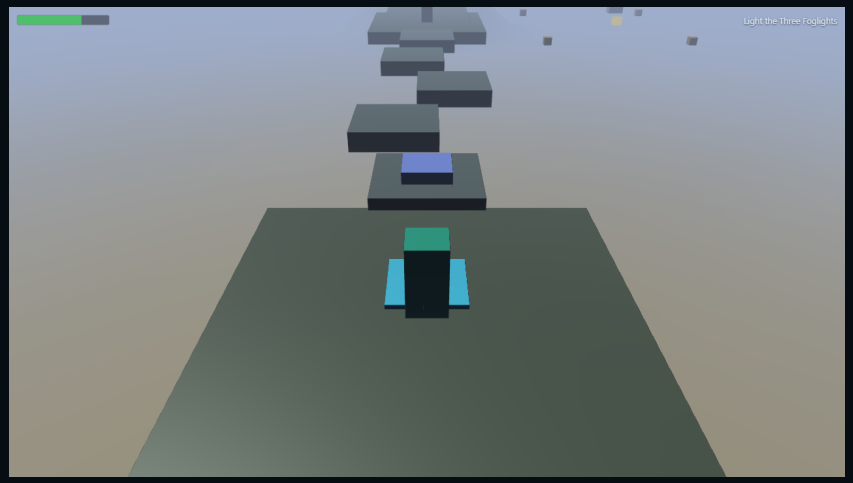
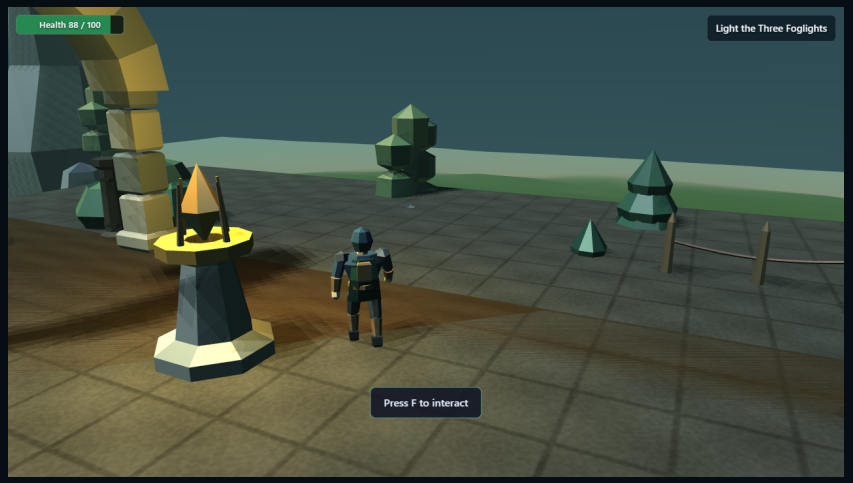
Foglight

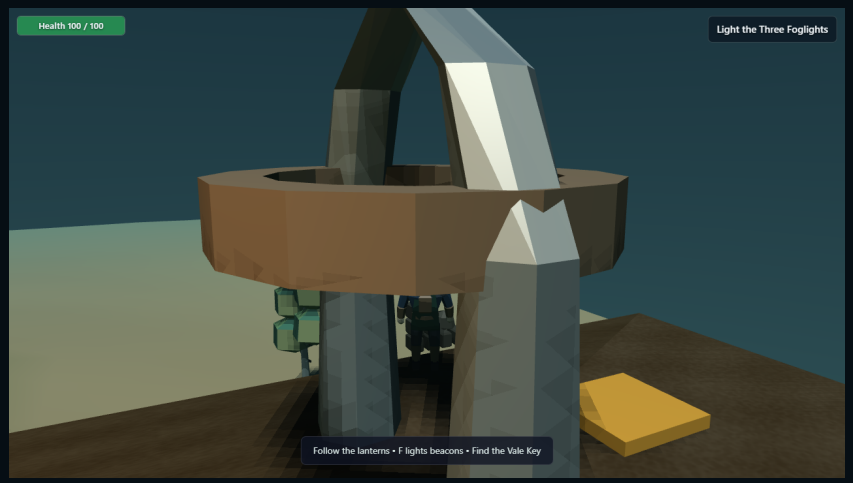
visual: 4 | clarity: 4 | layout: 4 | audio: 4 | presentation: 4 | uniqueness: 4



BASELINE



PREVIOUS



V3

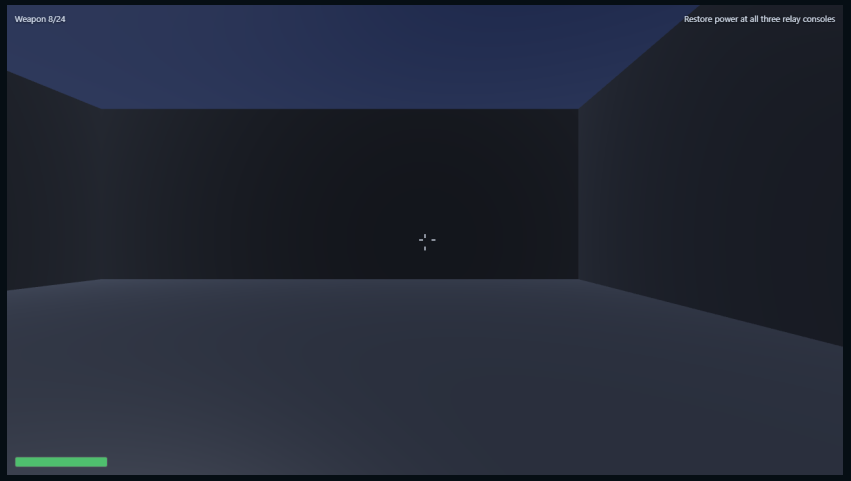
V4 CURRENT

REDESIGN Bent and widened the causeway into three distinct courts, a guardian clearing and sanctuary vista. Camera: Pulled the arch away from spawn and opened the sanctuary sightline. Gameplay: Guardian encounter now occurs in its own readable clearing.

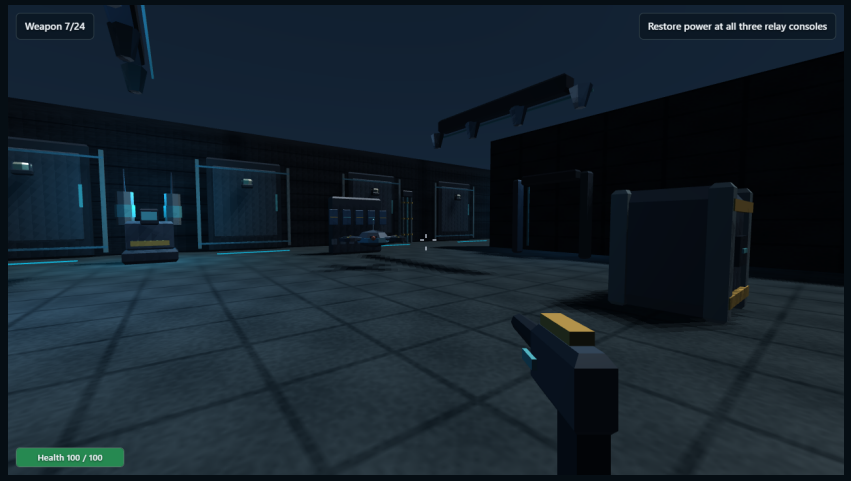
REMAINING Low-poly forest edges remain visible

Signal Relay

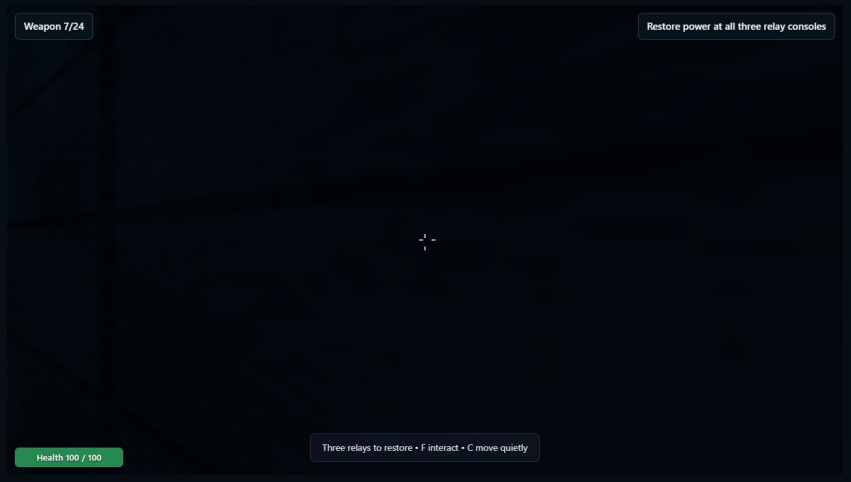
visual: 4 | clarity: 4 | layout: 4 | audio: 4 | presentation: 4 | uniqueness: 3



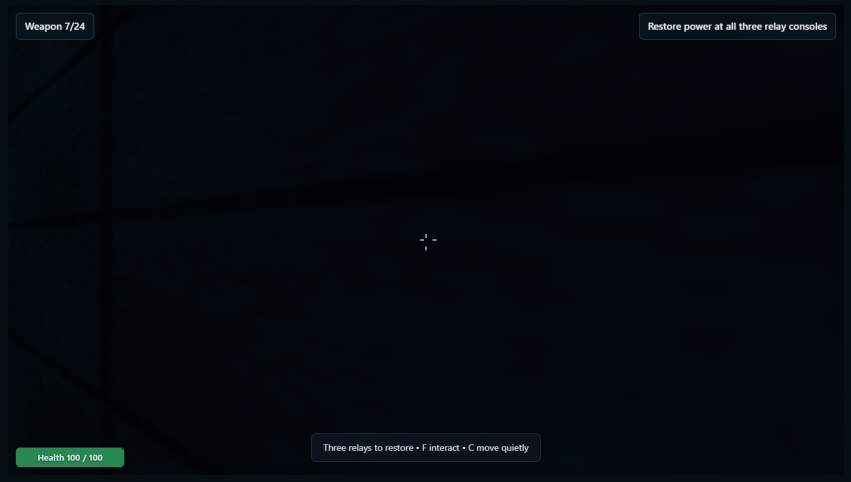
BASELINE



PREVIOUS



V3



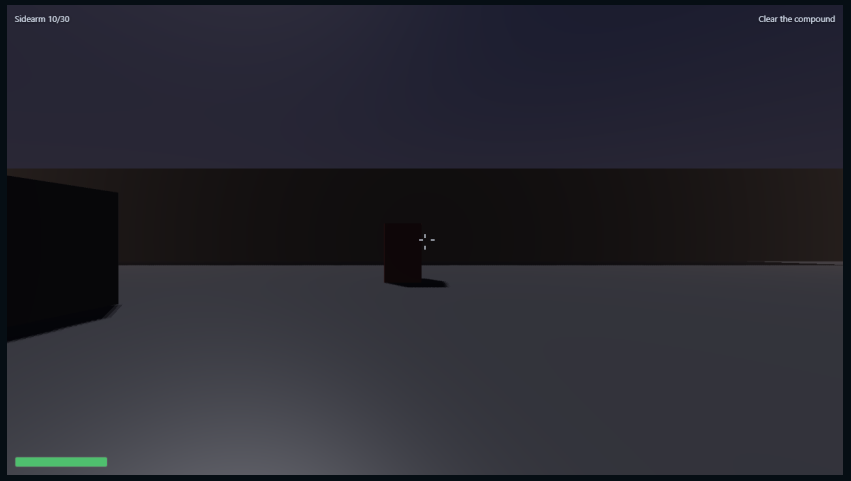
V4 CURRENT

REDESIGN Partitioned Alpha, Beta and Gamma into distinct chambers with thresholds and light pools. Camera: Raised ambient readability and framed the weapon below the route. Gameplay: Each restore step now advances through a visibly different chamber.

REMAINING Close-range wall vocabulary remains compact

Arsenal Run

visual: 4 | clarity: 4 | layout: 4 | audio: 4 | presentation: 4 | uniqueness: 3



BASELINE

PREVIOUS

V3

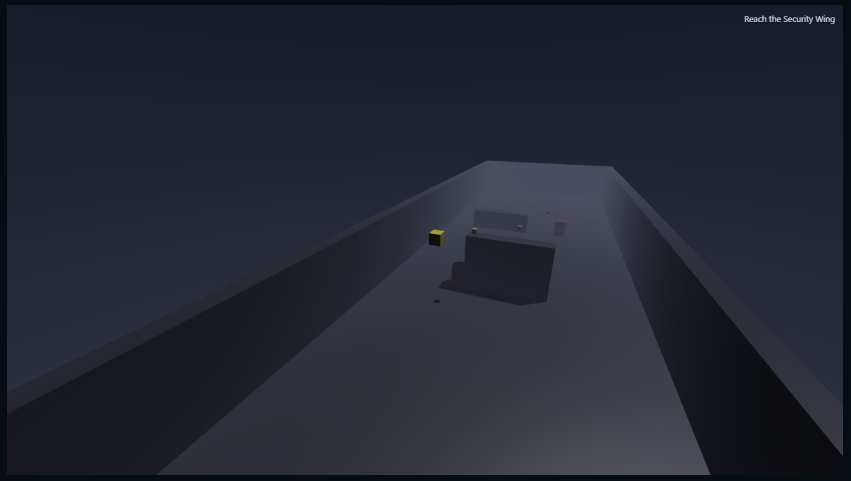
V4 CURRENT

REDESIGN Kept the compact footprint but added raised side lanes, stairs, layered cover, arrival portals and extraction wall. Camera: Lowered the central obstruction and opened the forward combat lane. Gameplay: Enemy arrival and extraction now have explicit destinations.

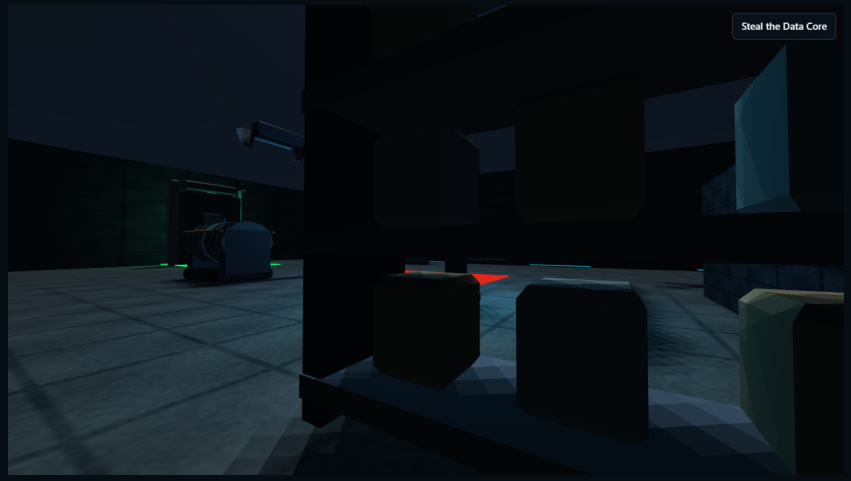
REMAINING Arcade-sized encounter remains brief

Silent Sector

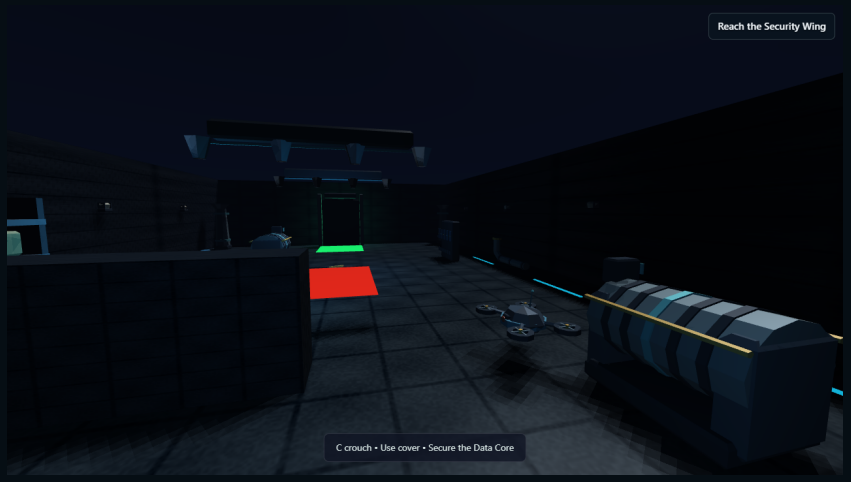
visual: 4 | clarity: 4 | layout: 4 | audio: 4 | presentation: 4 | uniqueness: 3



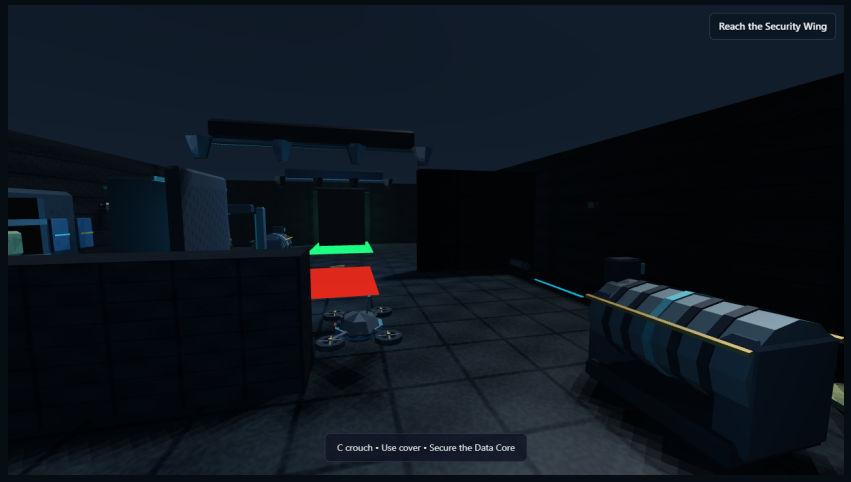
BASELINE



PREVIOUS



V3



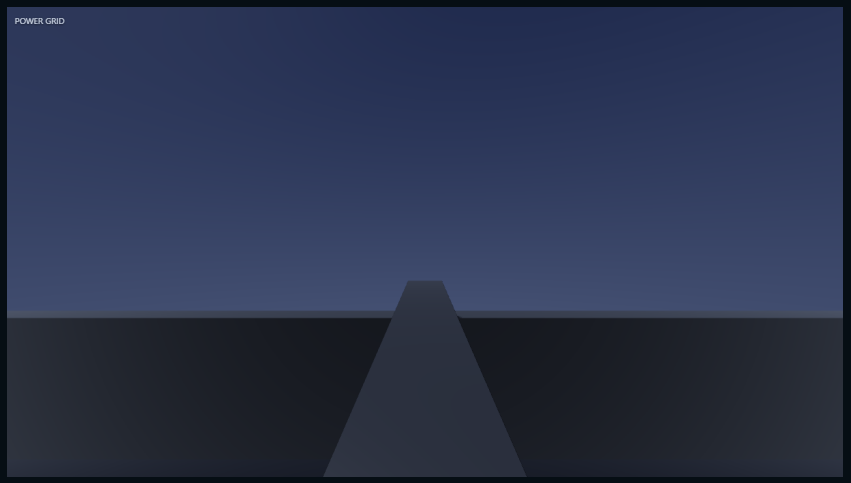
V4 CURRENT

REDESIGN Built alternating shadow dividers, cover lanes, patrol pools, a dedicated Core room and bright extraction. Camera: Used controlled pools of blue light to preserve mood without losing route. Gameplay: Stealth pacing now alternates exposed and protected lanes.

REMAINING Distant detail remains deliberately low-key

Power Grid

visual: 4 | clarity: 4 | layout: 4 | audio: 4 | presentation: 4 | uniqueness: 4



BASELINE

PREVIOUS

V3

V4 CURRENT

REDESIGN Recentered a generator court, split coolant A/B into separate wings and cleared the power-cell route. Camera: Moved the blocking machinery off-axis and framed the generator. Gameplay: OFFLINE to ONLINE progression is centered on the generator.

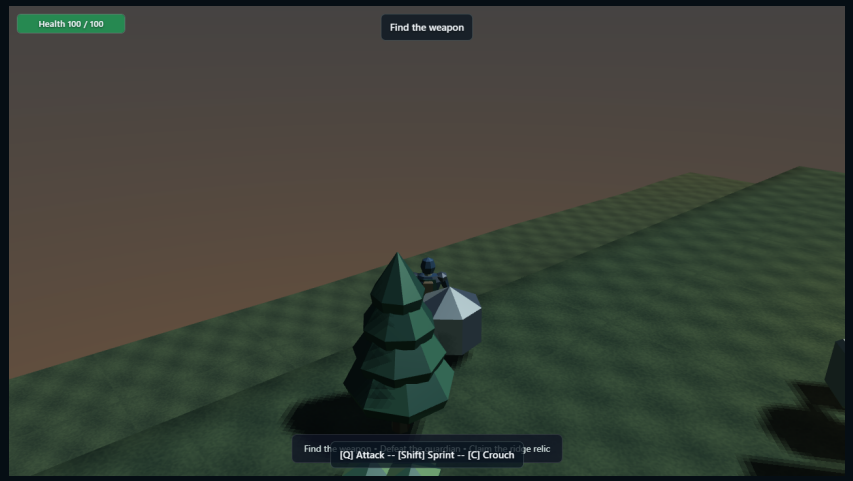
REMAINING Compact puzzle footprint limits long-form exploration

Relic Frontier

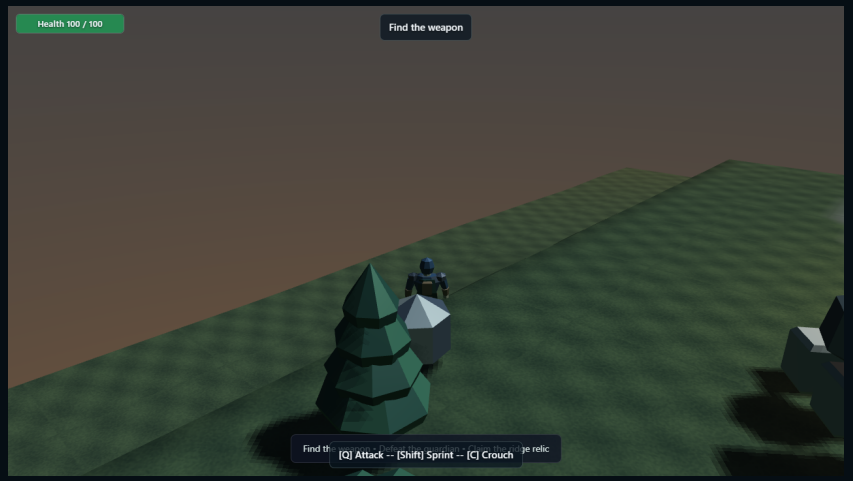
visual: 4 | clarity: 4 | layout: 4 | audio: 3 | presentation: 4 | uniqueness: 3

BASELINE

PREVIOUS



V3



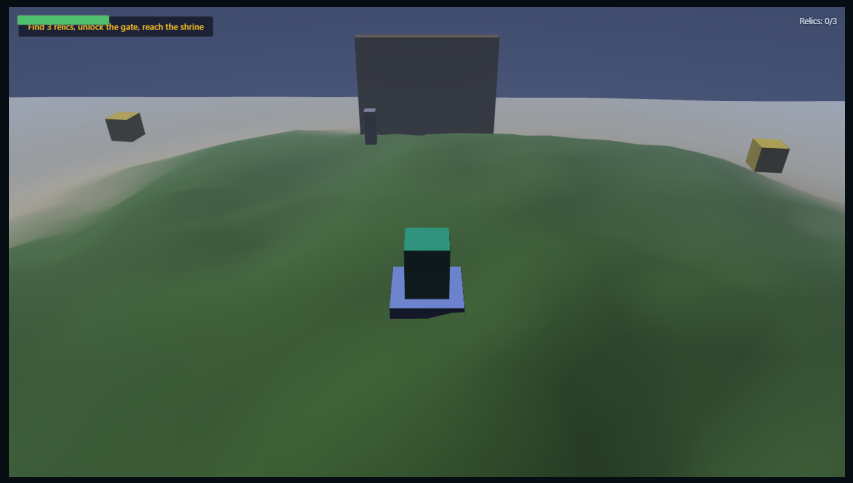
V4 CURRENT

REDESIGN Cut a sunken combat court, layered cover, ascent terraces and a gate destination. Camera: Added foreground cover and a clearer elevated relic sightline. Gameplay: Combat resolves before a staged ascent and extraction.

REMAINING Combat enemy variety is still limited

Relic Island

visual: 3 | clarity: 4 | layout: 4 | audio: 3 | presentation: 3 | uniqueness: 3



BASELINE

PREVIOUS

V3

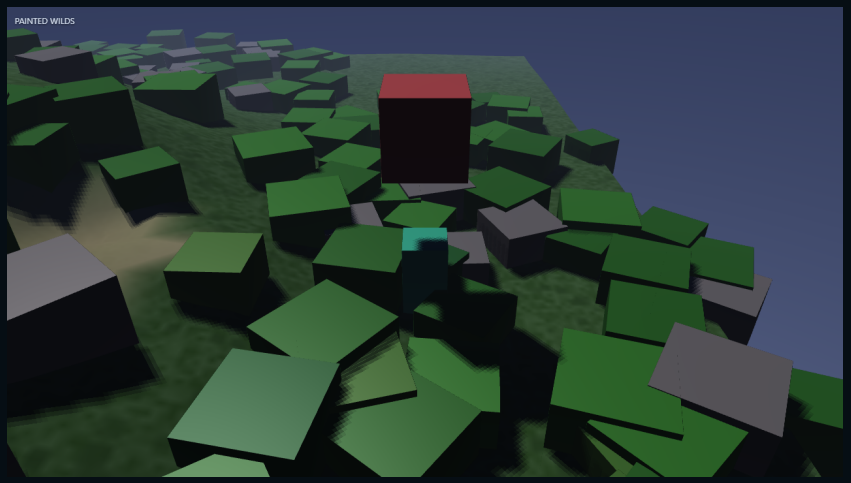
V4 CURRENT

REDESIGN Raised three distinct relic terraces, cut a lava channel and strengthened the shrine plateau. Camera: Used terrain ridges to frame successive relic destinations. Gameplay: Hazard crossing now separates collection from finale.

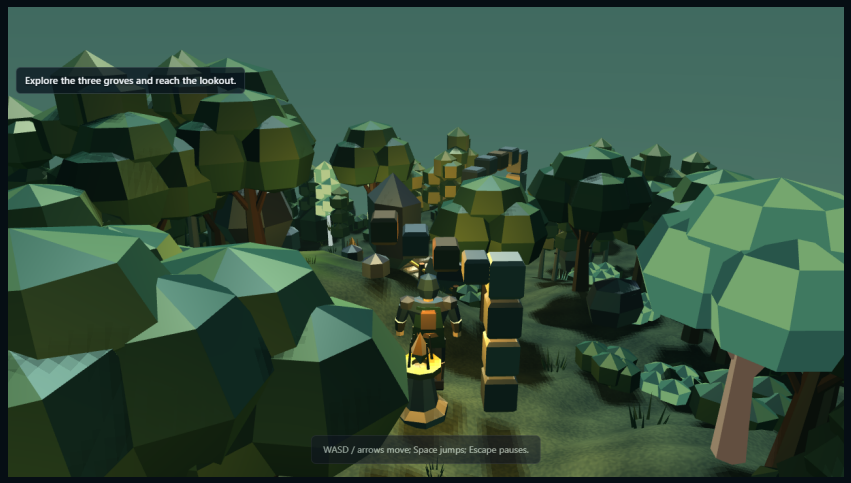
REMAINING Terrain remains intentionally low-poly

Forest Range

visual: 4 | clarity: 4 | layout: 4 | audio: 3 | presentation: 4 | uniqueness: 4

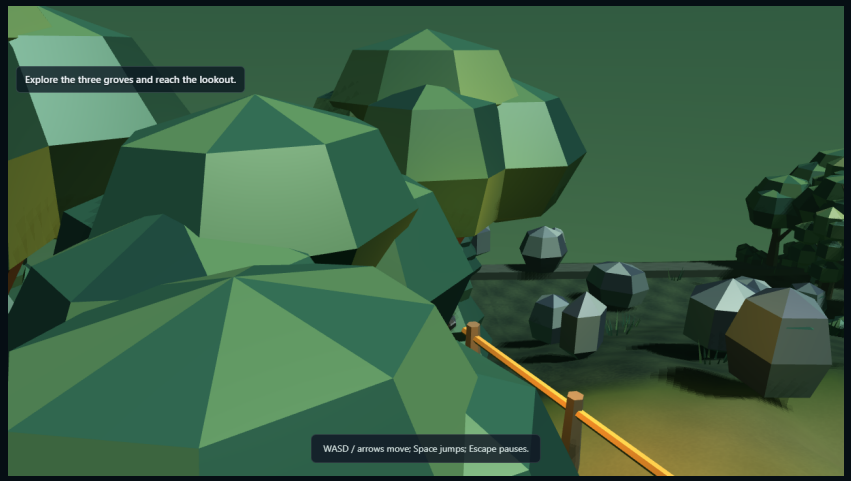


BASELINE



PREVIOUS

V3



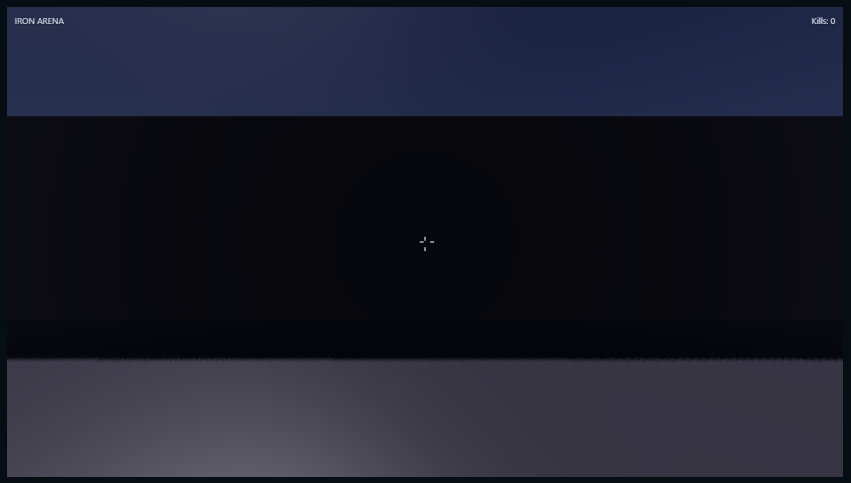
V4 CURRENT

REDESIGN Opened view corridors, added a memorable grove and staged lookout deck. Camera: Cleared the main camera corridor while retaining side density. Gameplay: Route now alternates enclosure and reveal.

REMAINING Canopy still occludes optional side views

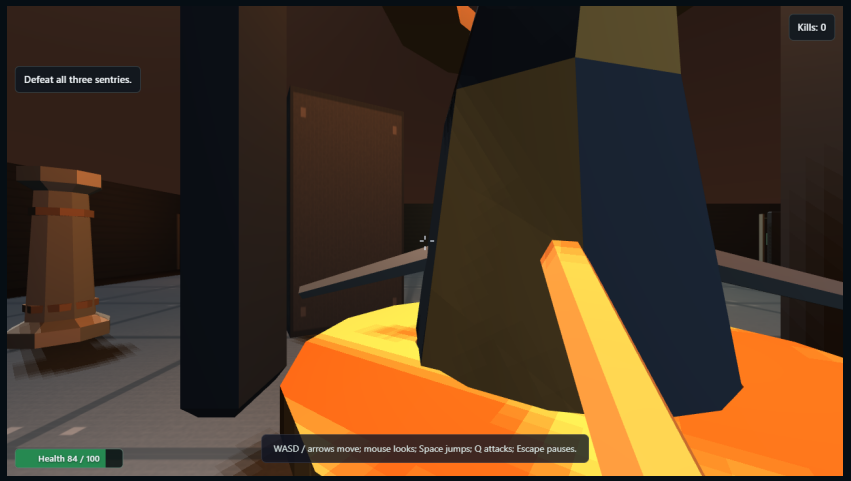
Iron Arena

visual: 4 | clarity: 4 | layout: 4 | audio: 3 | presentation: 4 | uniqueness: 3



BASELINE

PREVIOUS



V3

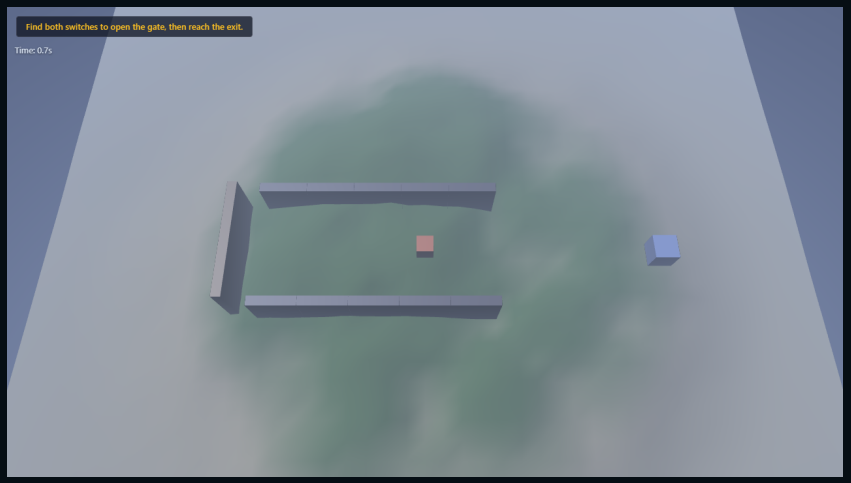
V4 CURRENT

REDESIGN Removed the giant foreground form, created a central focal structure, north deck and varied combat lanes. Camera: Lowered foreground mass and aligned the first sightline to the sentries. Gameplay: Sentry approach angles are now easier to read.

REMAINING Enemy encounter variety remains limited

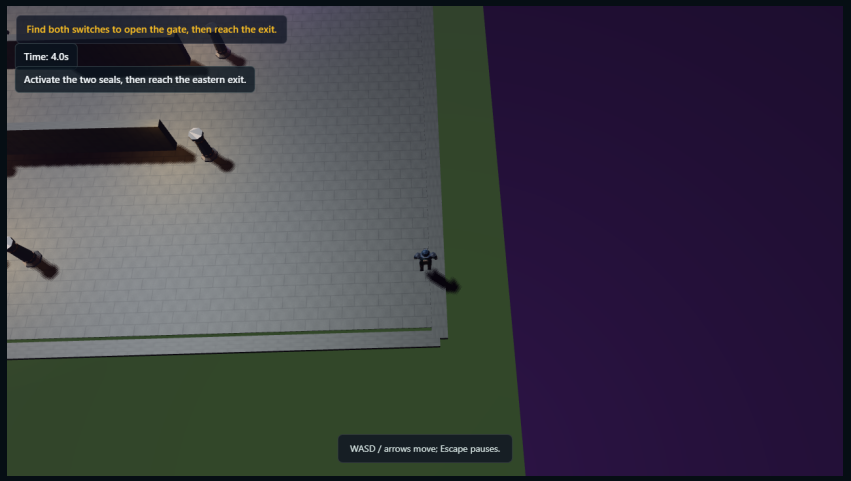
Dungeon Descent

visual: 3 | clarity: 4 | layout: 4 | audio: 3 | presentation: 3 | uniqueness: 3



BASELINE

PREVIOUS



V3

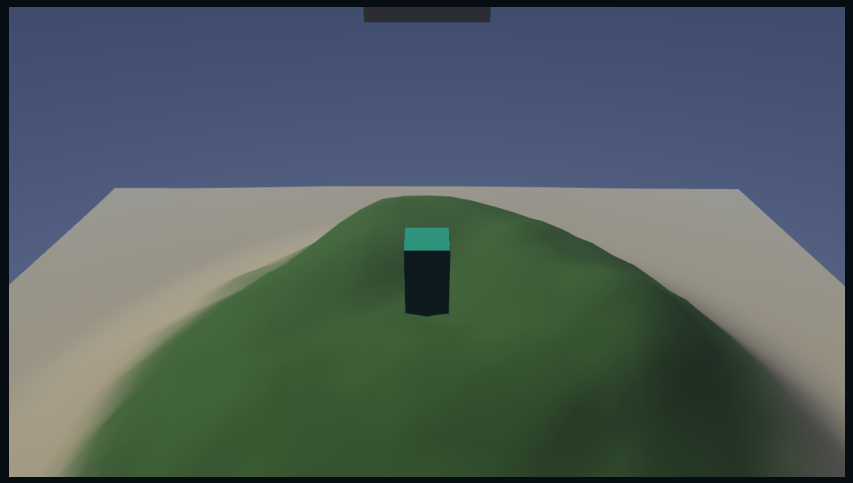
V4 CURRENT

REDESIGN Rebuilt the map as distinct chambers, corridors, cross walls, switch rooms and gate chamber. Camera: Composed landmarks for the fixed overhead camera. Gameplay: Switch order now reads spatially from above.

REMAINING Small character scale limits fine prop detail

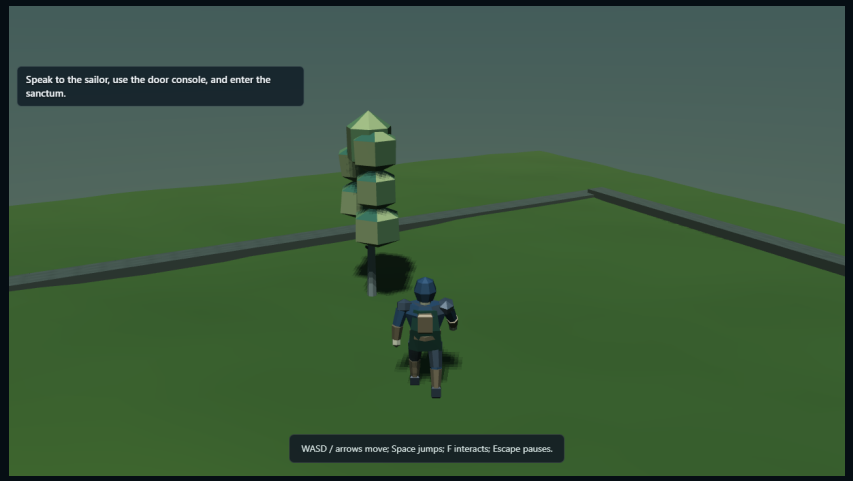
The Sanctum Key

visual: 3 | clarity: 4 | layout: 4 | audio: 3 | presentation: 3 | uniqueness: 3

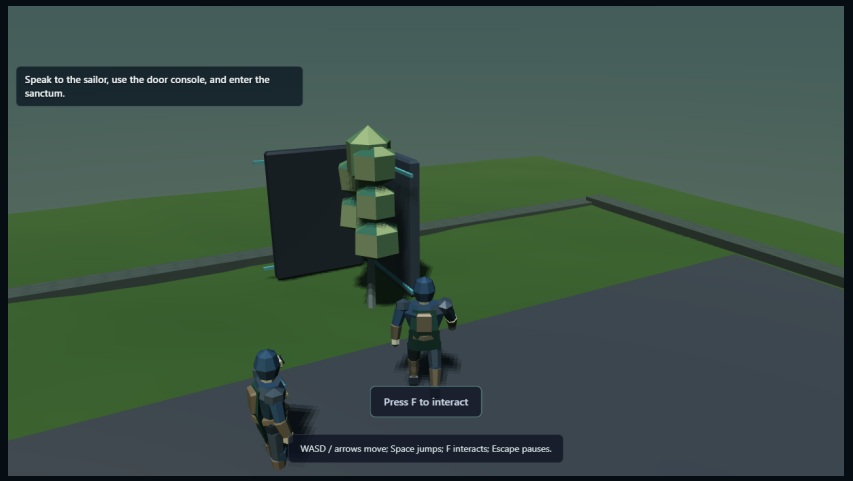


BASELINE

PREVIOUS



V3



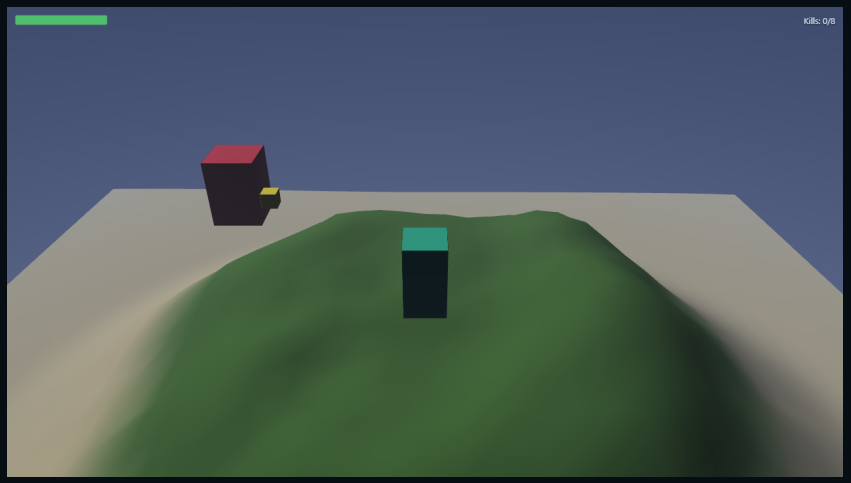
V4 CURRENT

REDESIGN Built a village lane, corner buildings, staged NPC space, sanctum arch and reveal. Camera: Aligned the approach camera down the village route. Gameplay: Dialogue, key and gate beats now occupy distinct spaces.

REMAINING NPC animation remains minimal

Opus Arena

visual: 4 | clarity: 4 | layout: 4 | audio: 3 | presentation: 4 | uniqueness: 3



BASELINE

PREVIOUS

V3

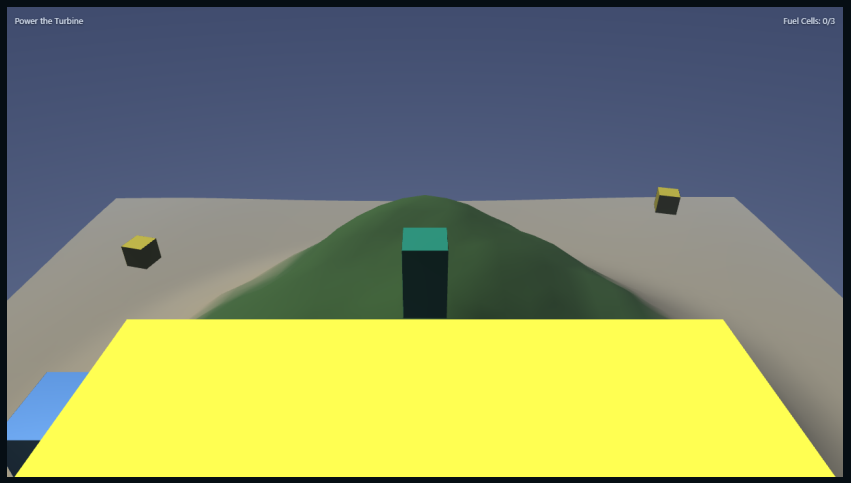
V4 CURRENT

REDESIGN Added protective side decks and cover lanes; tuned health, weapon damage, spawn interval and enemy pressure. Camera: Opened central aim lanes and kept threats visible beyond cover. Gameplay: Three native-input runs achieved 8/8 kills, win and Restart near 30 seconds.

REMAINING Enemy archetype variety remains limited

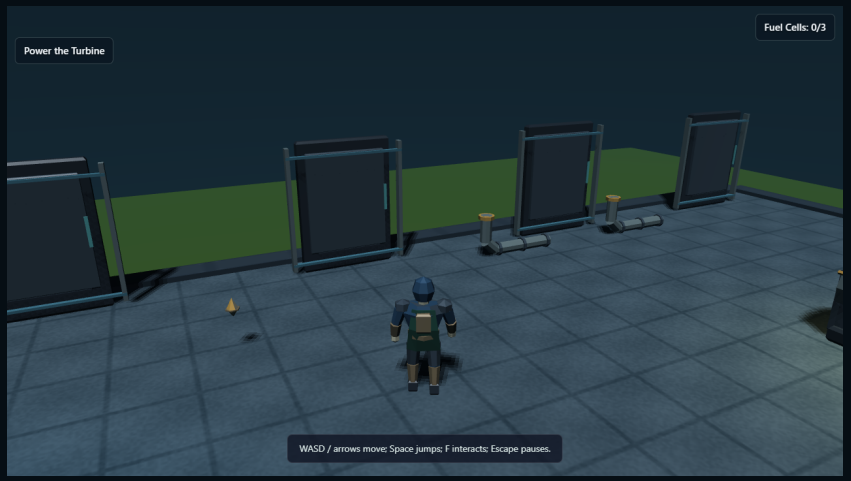
Power Station

visual: 3 | clarity: 4 | layout: 4 | audio: 3 | presentation: 3 | uniqueness: 3

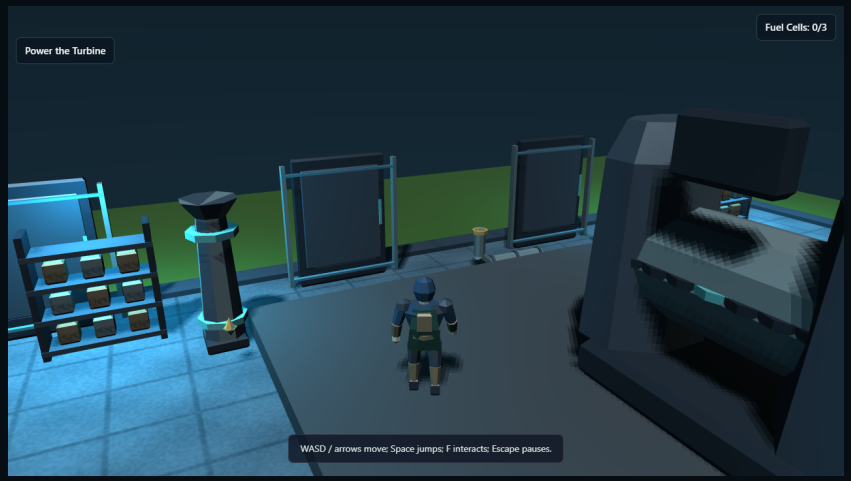


BASELINE

PREVIOUS



V3



V4 CURRENT

REDESIGN Built a dominant turbine deck, fuel alcoves and engineer staging around a machinery route. Camera: Offset the spawn view to read turbine, NPC and first cell together. Gameplay: Fuel collection now loops through machinery before restoration.

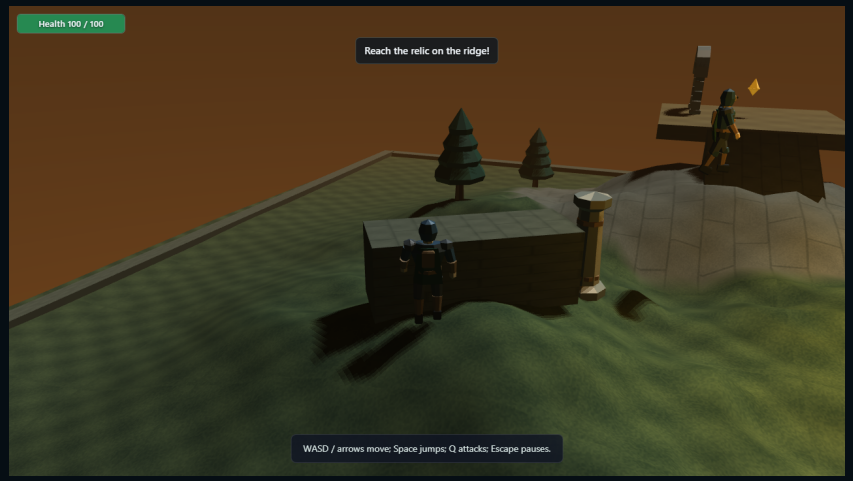
REMAINING NPC interaction remains mechanically direct

Relic Runner 2

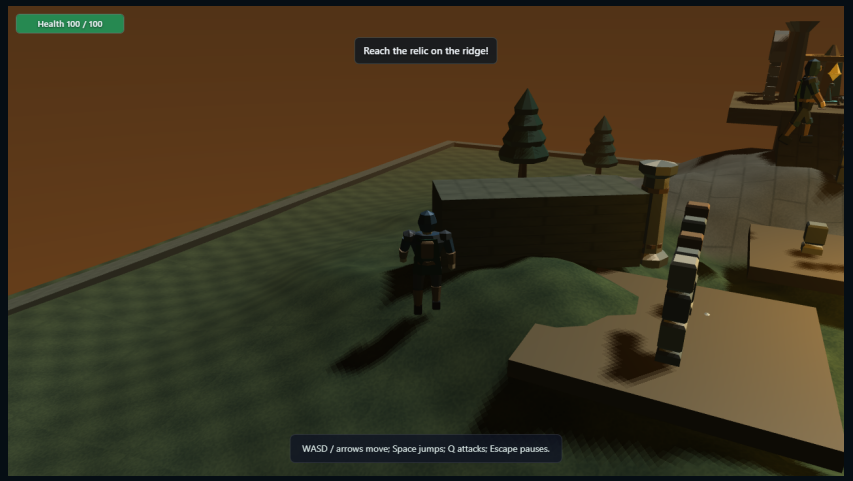
visual: 3 | clarity: 4 | layout: 4 | audio: 3 | presentation: 3 | uniqueness: 3

BASELINE

PREVIOUS



V3



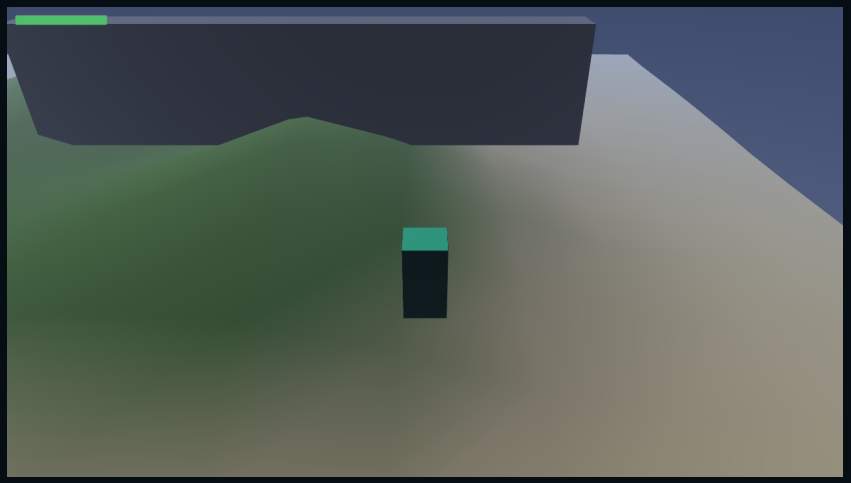
V4 CURRENT

REDESIGN Built checkpoint platforms, gates, stairs and a stronger ridge finale. Camera: Framed early gates toward the visible final ridge. Gameplay: Checkpoint-to-ridge pacing now escalates.

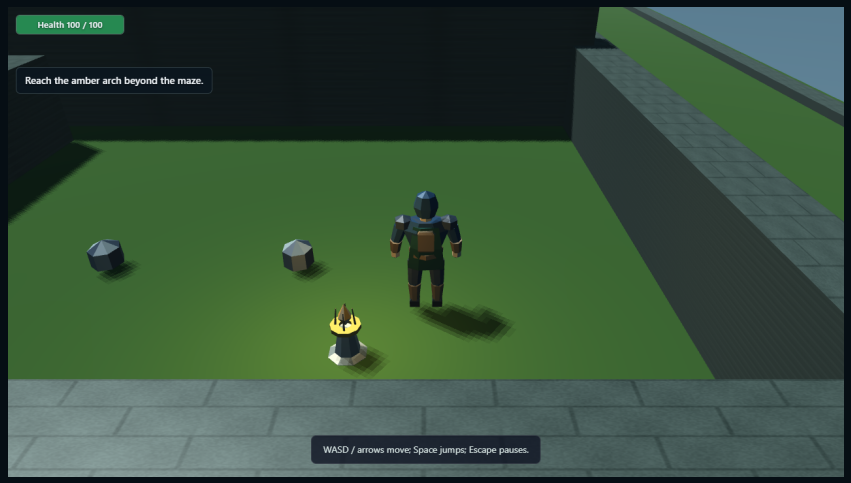
REMAINING Route remains a concise sprint

Sentinel Maze

visual: 3 | clarity: 3 | layout: 4 | audio: 3 | presentation: 3 | uniqueness: 3

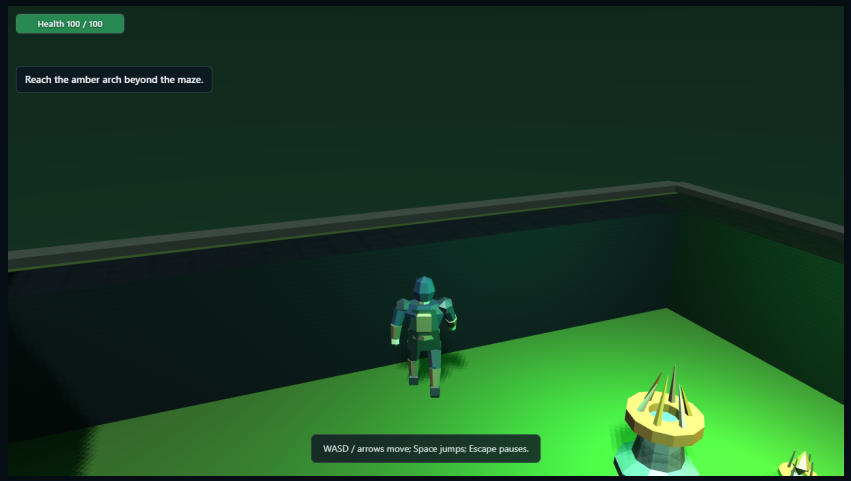


BASELINE



PREVIOUS

V3



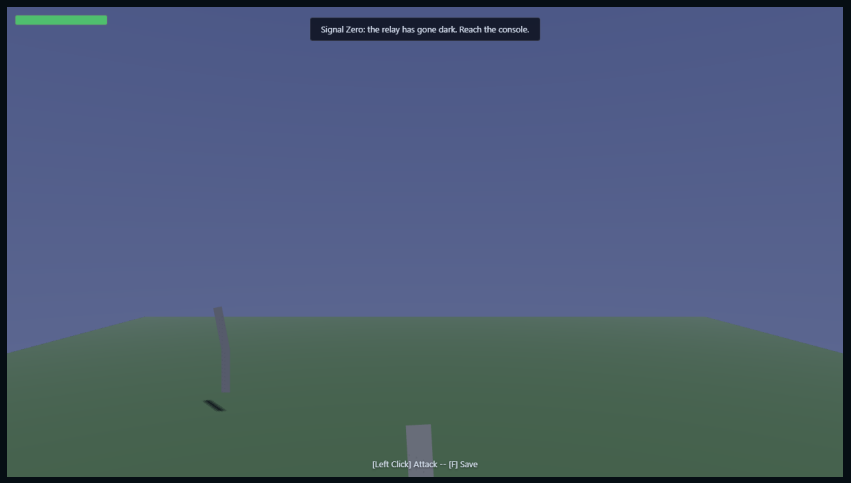
V4 CURRENT

REDESIGN Varied wall rhythm, added district markers and exposed the amber exit as a destination. Camera: Opened longer chase sightlines at turns. Gameplay: Navigation cues better support the existing pursuit loop.

REMAINING Maze materials remain simple

Signal Zero

visual: 3 | clarity: 4 | layout: 4 | audio: 3 | presentation: 3 | uniqueness: 4



BASELINE

PREVIOUS

V3

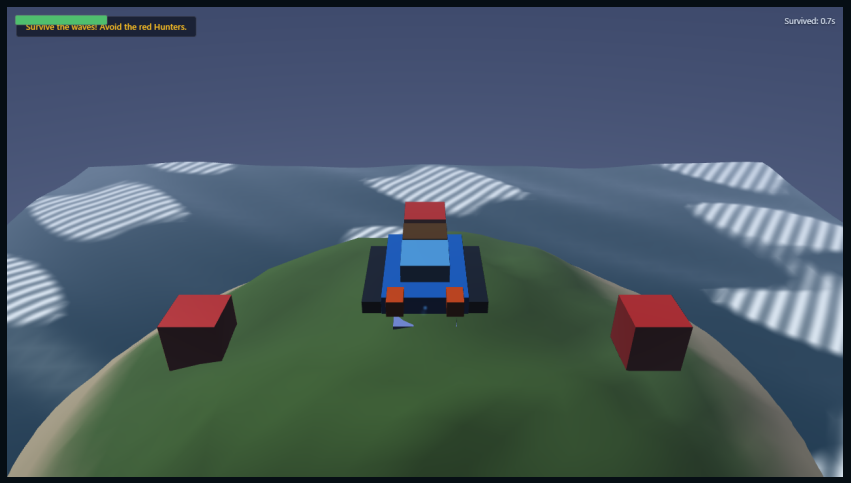
V4 CURRENT

REDESIGN Gave Level 1 blue relay wings and Level 2 a hot reactor dais with distinct combat lanes. Camera: Changed focal depth and color hierarchy between levels. Gameplay: Multi-level transition now carries a clear escalation.

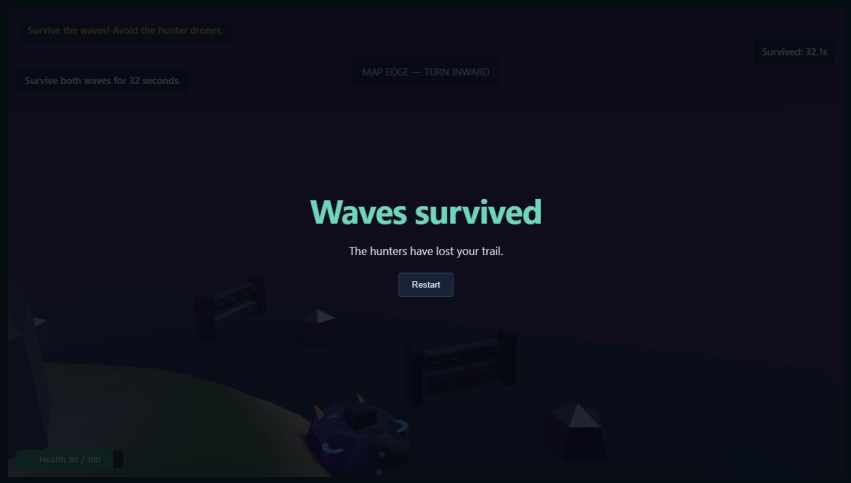
REMAINING Both levels remain compact

Survival Arena 2

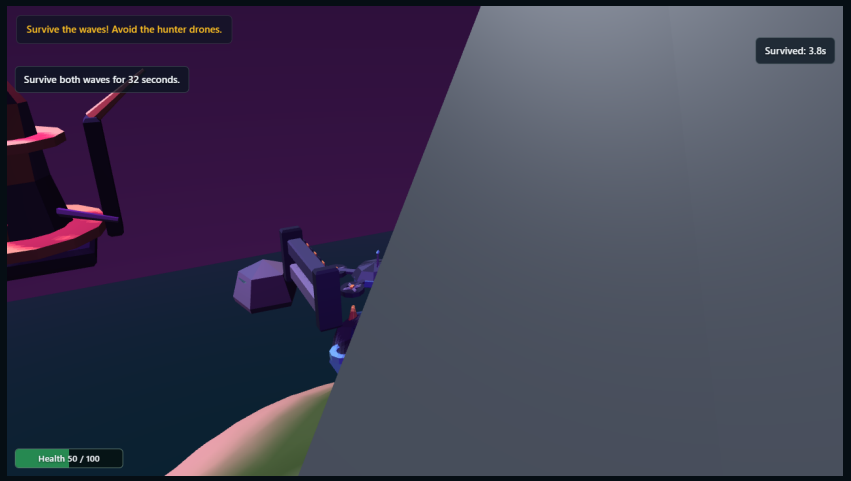
visual: 3 | clarity: 4 | layout: 4 | audio: 3 | presentation: 4 | uniqueness: 4



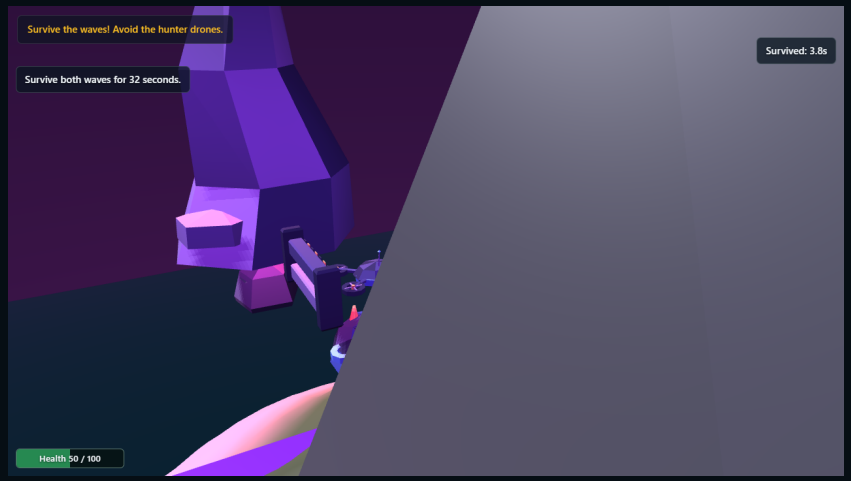
BASELINE



PREVIOUS



V3



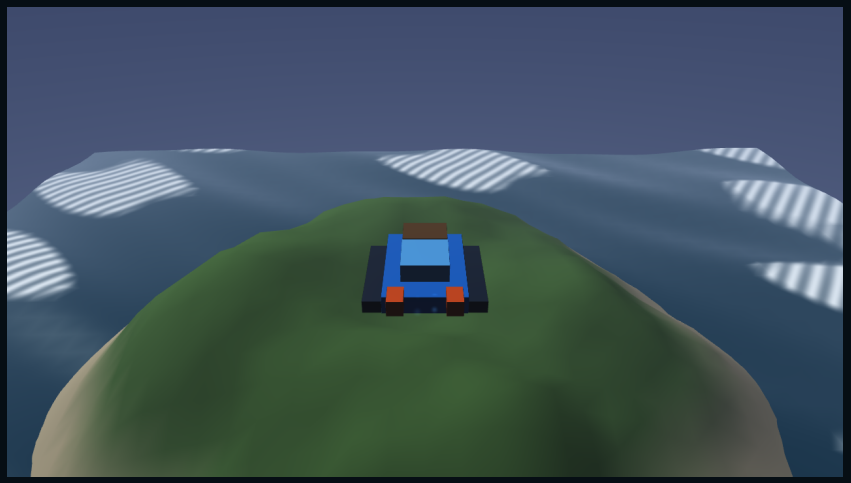
V4 CURRENT

REDESIGN Authored an outer storm circuit, inner escape field and timed route markers. Camera: Kept major silhouettes outside the immediate driving cone. Gameplay: Vehicle can alternate inner and outer loops through both waves.

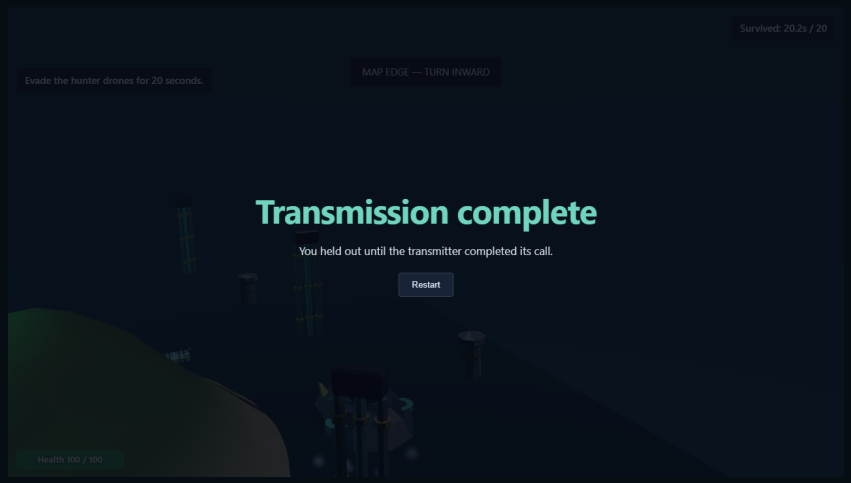
REMAINING Survival remains a single-mode timer challenge

Survival Arena 3

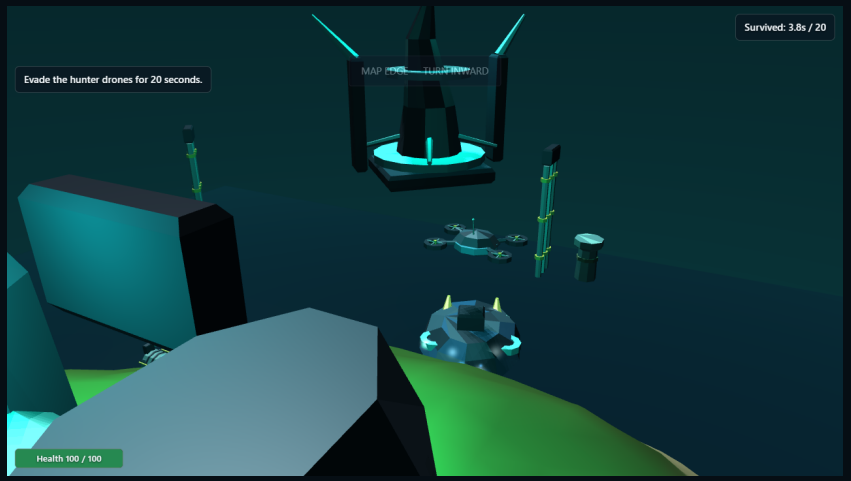
visual: 4 | clarity: 4 | layout: 4 | audio: 3 | presentation: 4 | uniqueness: 4



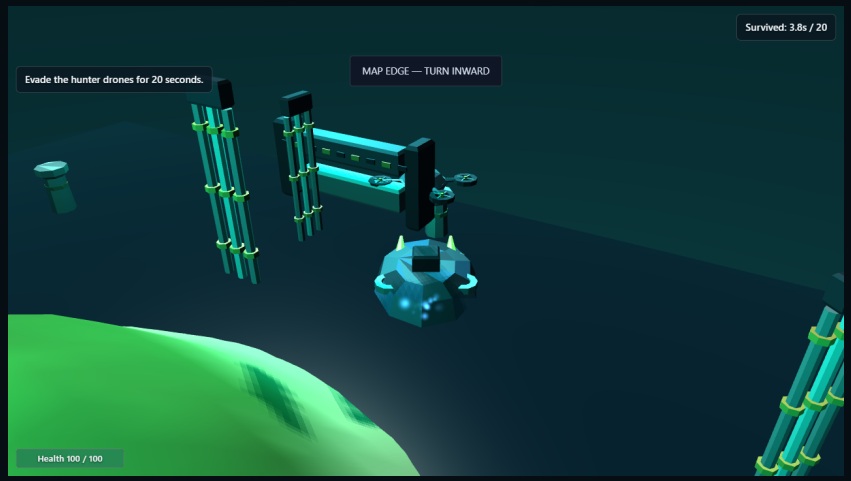
BASELINE



PREVIOUS



V3



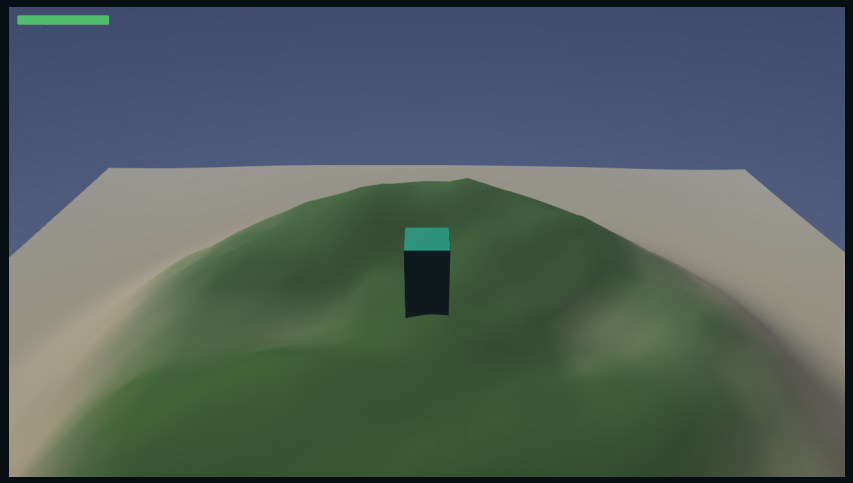
V4 CURRENT

REDESIGN Built a central transmitter, perimeter stations and radial defense lanes. Camera: Centered the transmitter as a persistent camera anchor. Gameplay: Vehicle route now reads as defending a perimeter.

REMAINING Enemy variety remains modest

Textured Adventure

visual: 3 | clarity: 4 | layout: 4 | audio: 3 | presentation: 3 | uniqueness: 4



BASELINE

PREVIOUS

V3

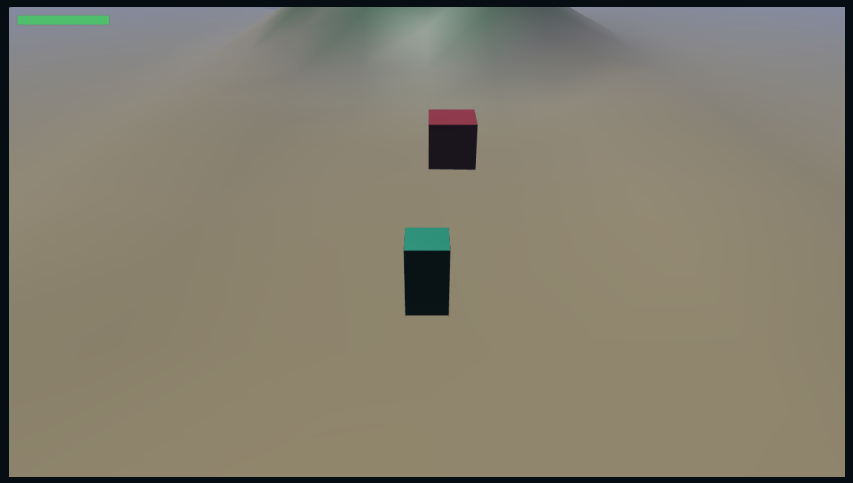
V4 CURRENT

REDESIGN Divided the route into four terrain/material biomes with distinct transitions. Camera: Framed each transition as a new midground destination. Gameplay: Relic collection explicitly traverses the material sequence.

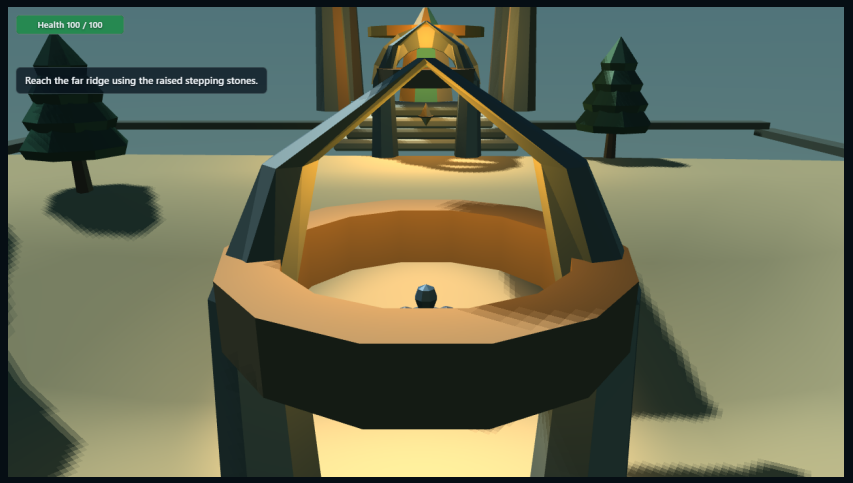
REMAINING Some platform edges remain geometrically plain

Valley Run

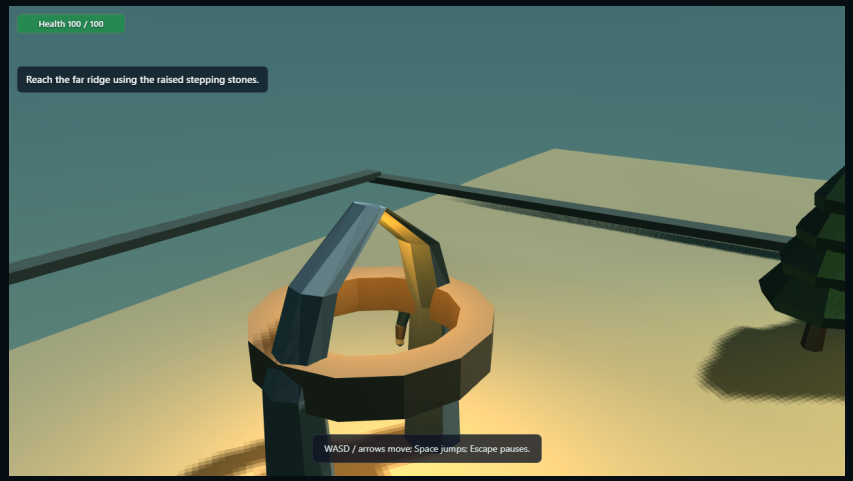
visual: 3 | clarity: 4 | layout: 4 | audio: 3 | presentation: 4 | uniqueness: 3



BASELINE



PREVIOUS



V3

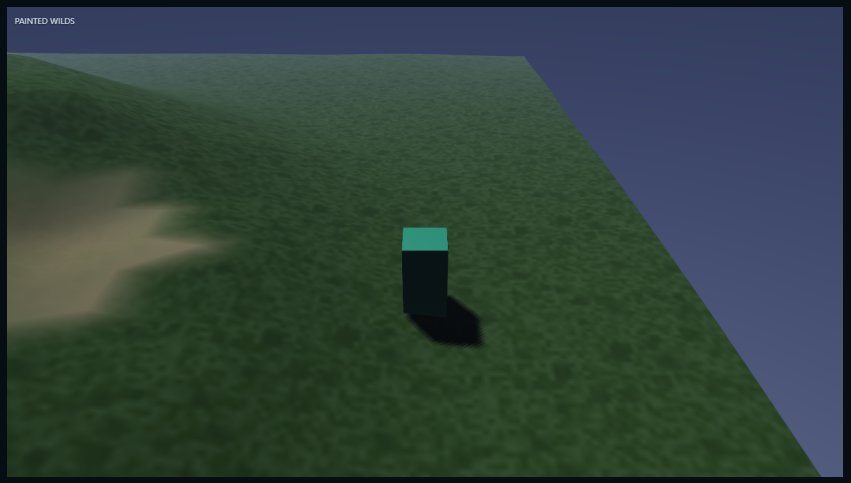
V4 CURRENT

REDESIGN Bent the valley path through gated checkpoints, cliff walls and a final ridge. Camera: Added a distant destination and intervening framing gates. Gameplay: Checkpoint-to-ridge progression now reads before movement.

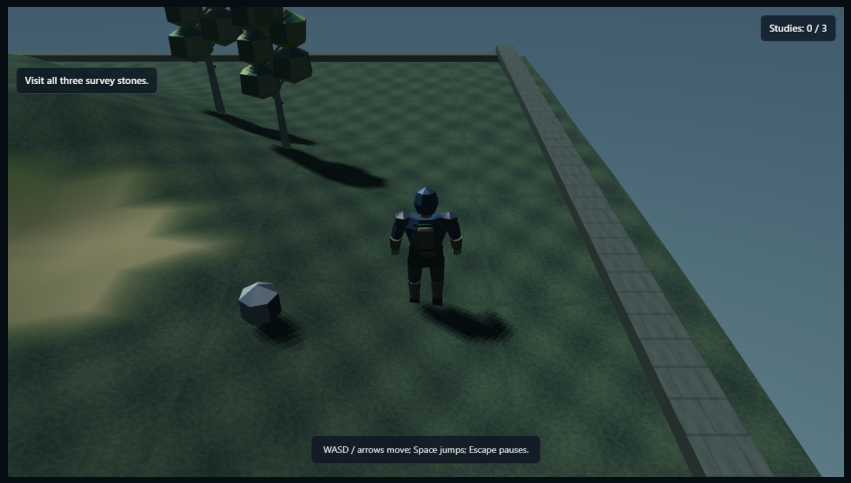
REMAINING Core route remains linear

Painted Wilds

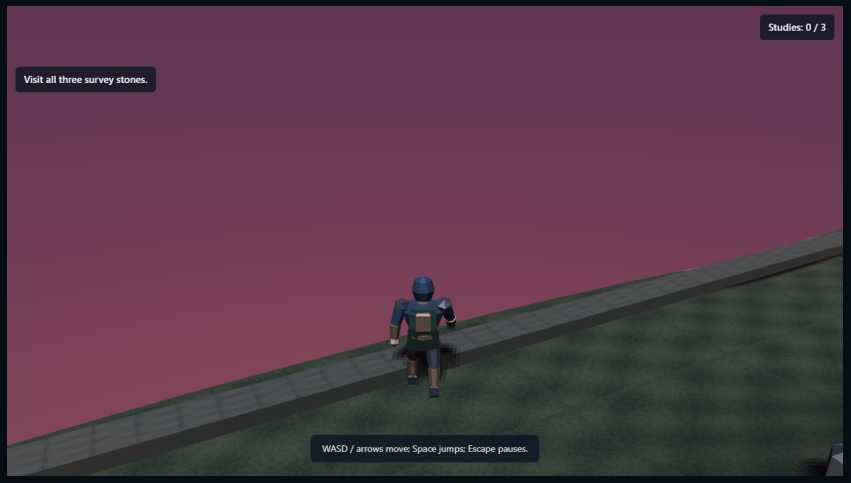
visual: 3 | clarity: 4 | layout: 4 | audio: 3 | presentation: 3 | uniqueness: 4



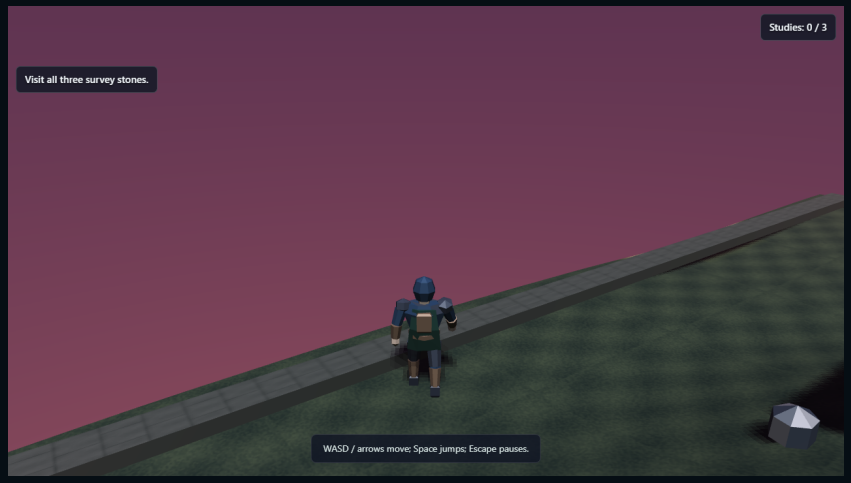
BASELINE



PREVIOUS



V3



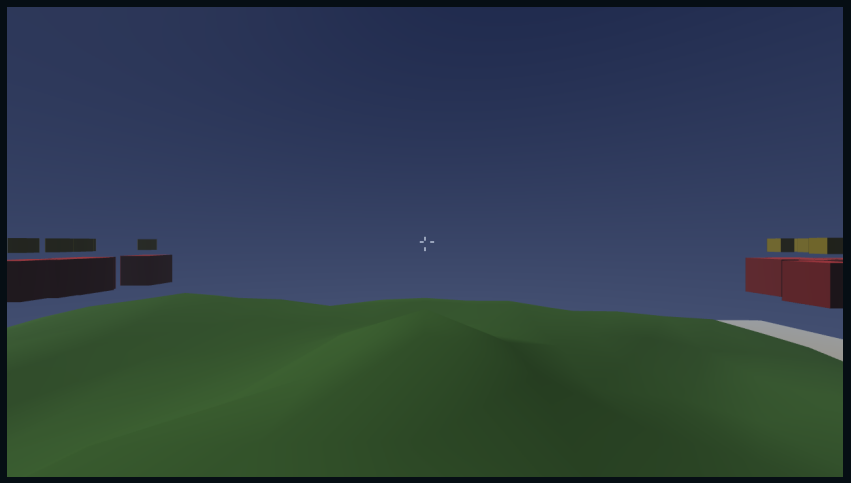
V4 CURRENT

REDESIGN Created three painted terrain biomes with distinct boundaries and silhouette families. Camera: Aligned the route across visible color transitions. Gameplay: Survey sequence now crosses each authored biome.

REMAINING Peripheral silhouette density remains restrained

Assembly Line

visual: 3 | clarity: 4 | layout: 4 | audio: 3 | presentation: 3 | uniqueness: 4



BASELINE

PREVIOUS

V3

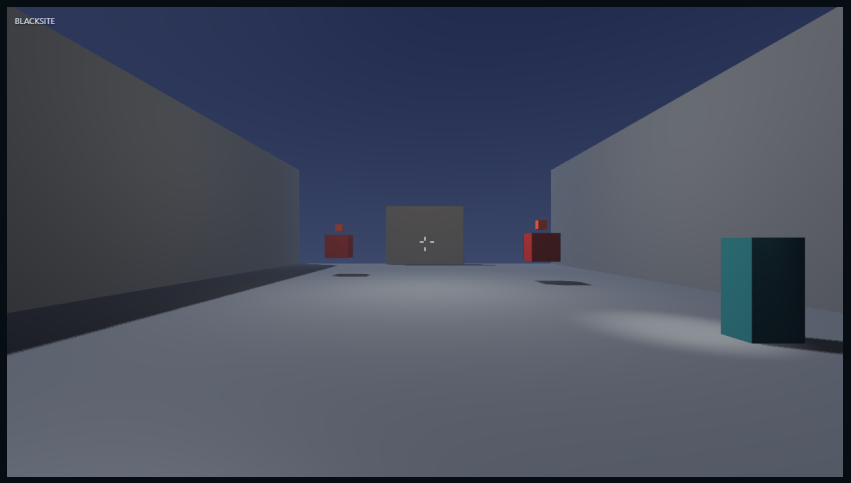
V4 CURRENT

REDESIGN Built fabrication, transfer and inspection bays with thresholds and lanes. Camera: Framed the first bay toward the active transfer route. Gameplay: Objective now advances through a visible production sequence.

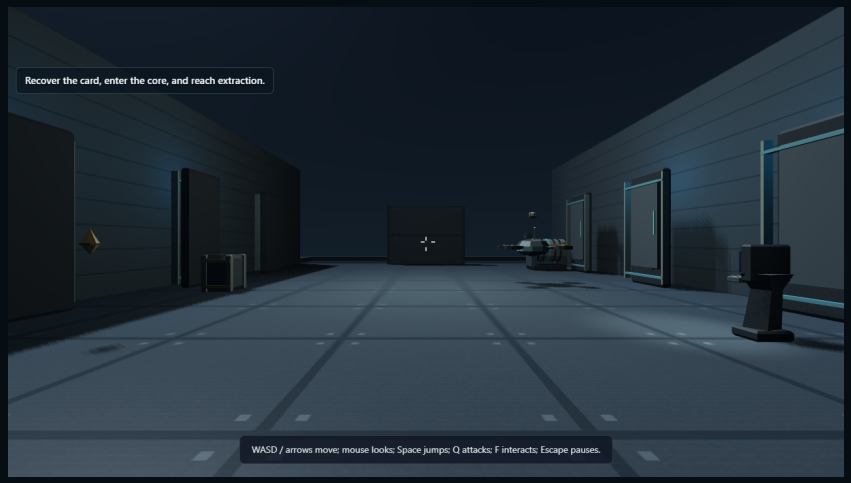
REMAINING Factory shell remains open above

Blacksite

visual: 3 | clarity: 4 | layout: 4 | audio: 3 | presentation: 3 | uniqueness: 3



BASELINE



PREVIOUS

V3

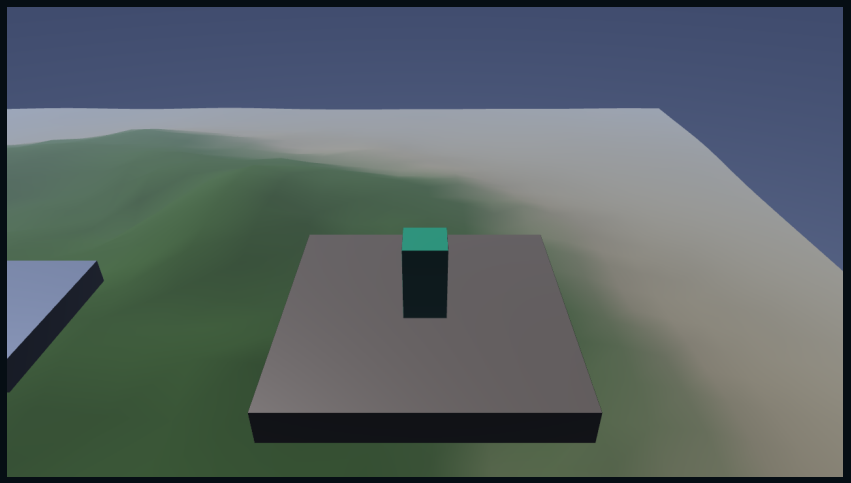
V4 CURRENT

REDESIGN Separated exterior, secure entry and Core with different widths, thresholds and focal props. Camera: Used long entry sightline followed by compressed Core framing. Gameplay: Access-card route now visibly escalates toward extraction.

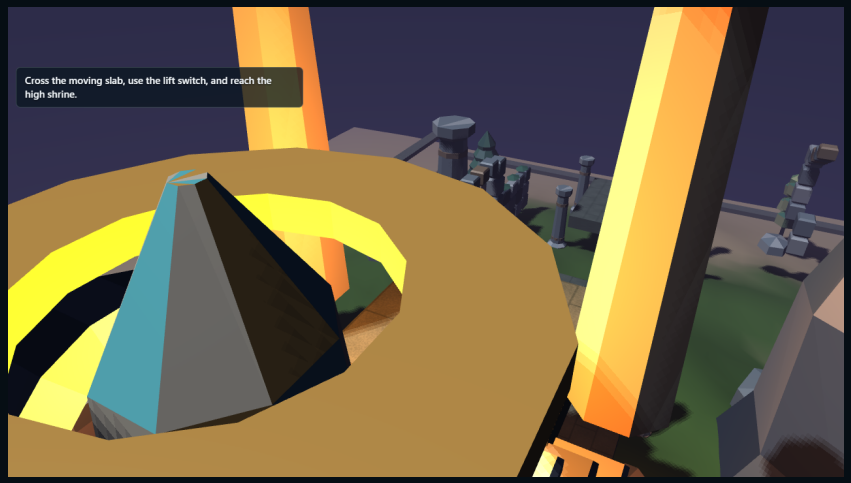
REMAINING Some corridor modules still repeat

Moving Temple

visual: 4 | clarity: 4 | layout: 4 | audio: 3 | presentation: 4 | uniqueness: 4



BASELINE



PREVIOUS

V3

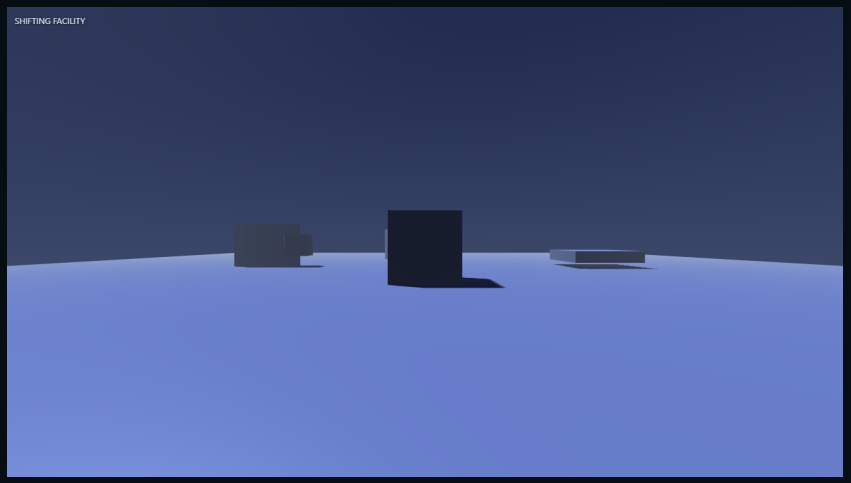
V4 CURRENT

REDESIGN Replaced dominant forms with lower and upper courts, temple piers and a summit shrine. Camera: Pulled major masses away from spawn and opened the ascent vista. Gameplay: Moving slab and lift now connect distinct architectural stages.

REMAINING Distant scenery remains low-poly

Shifting Facility

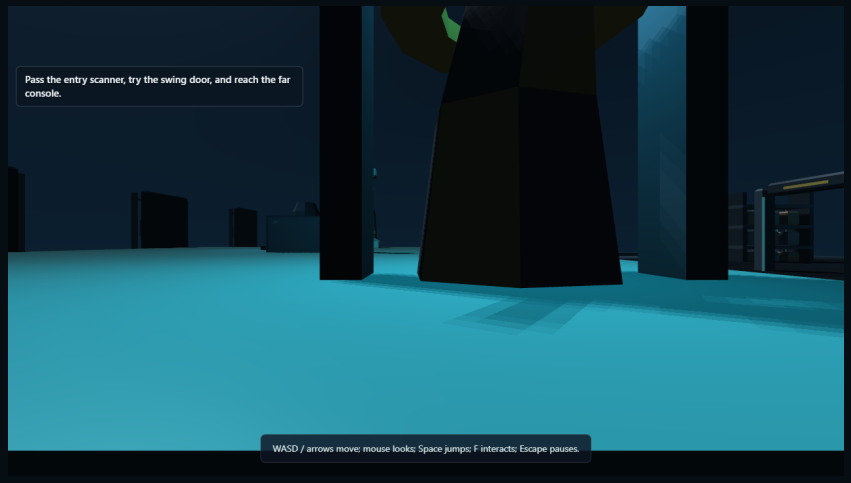
visual: 4 | clarity: 4 | layout: 4 | audio: 3 | presentation: 3 | uniqueness: 4



BASELINE

PREVIOUS

V3



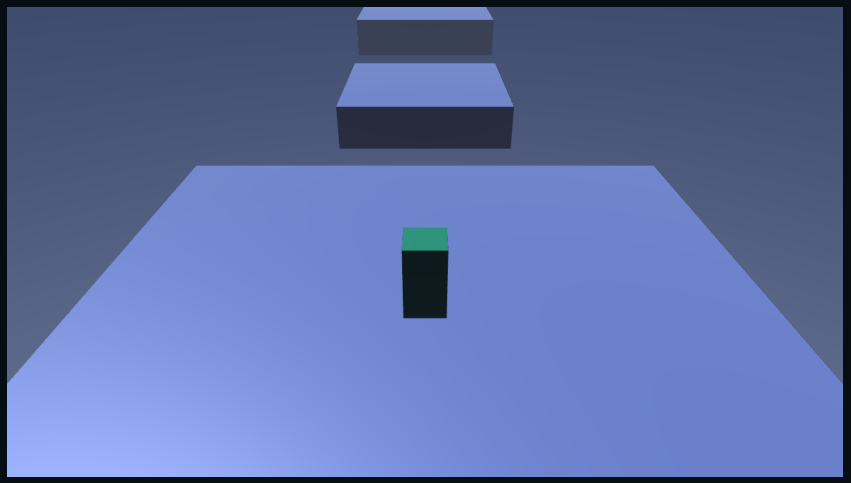
V4 CURRENT

REDESIGN Built fixed and shifted wings with distinct architecture, thresholds and state focal objects. Camera: Centered the seam so both state identities are visible. Gameplay: Scanner, shifting door and final console occupy separate zones.

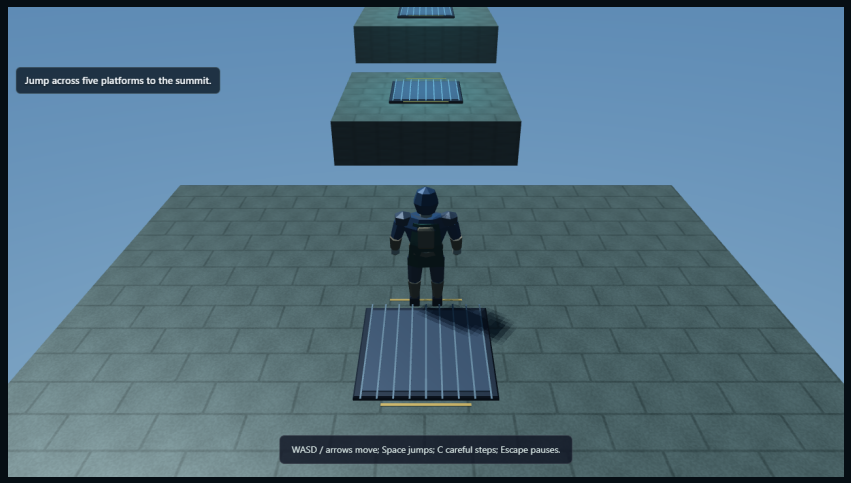
REMAINING Prop vocabulary is still compact

Skyway Trial

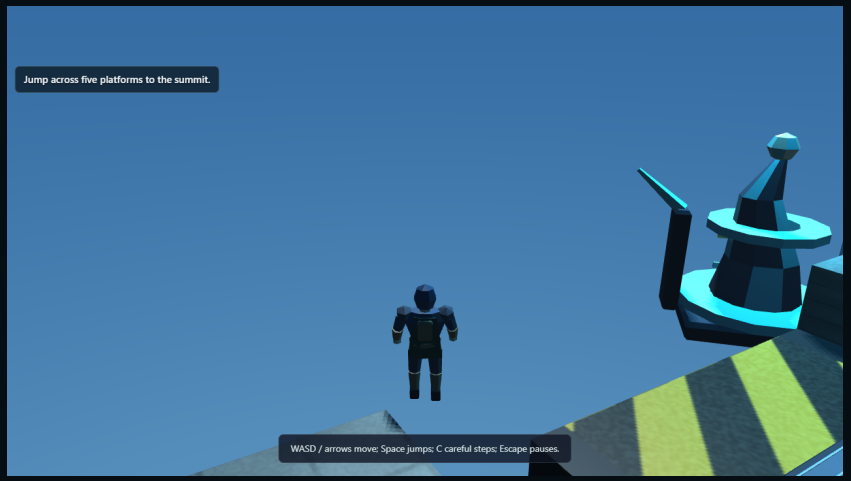
visual: 3 | clarity: 4 | layout: 4 | audio: 3 | presentation: 3 | uniqueness: 3



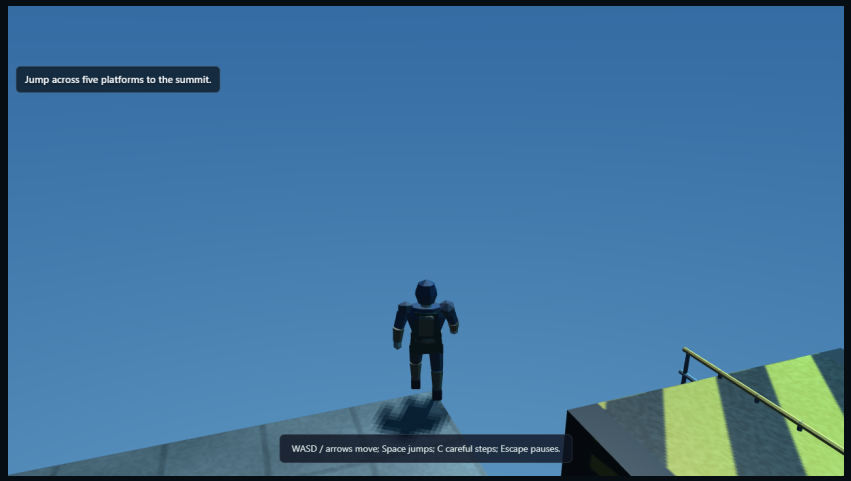
BASELINE



PREVIOUS



V3



V4 CURRENT

REDESIGN Varied platform footprints, added side silhouettes and exposed the summit gate. Camera: Placed summit high in the opening sightline. Gameplay: Jump sequence now has readable escalation.

REMAINING Five-platform route remains short

Survival Arena

visual: 4 | clarity: 4 | layout: 4 | audio: 3 | presentation: 4 | uniqueness: 4

BASELINE

PREVIOUS

V3

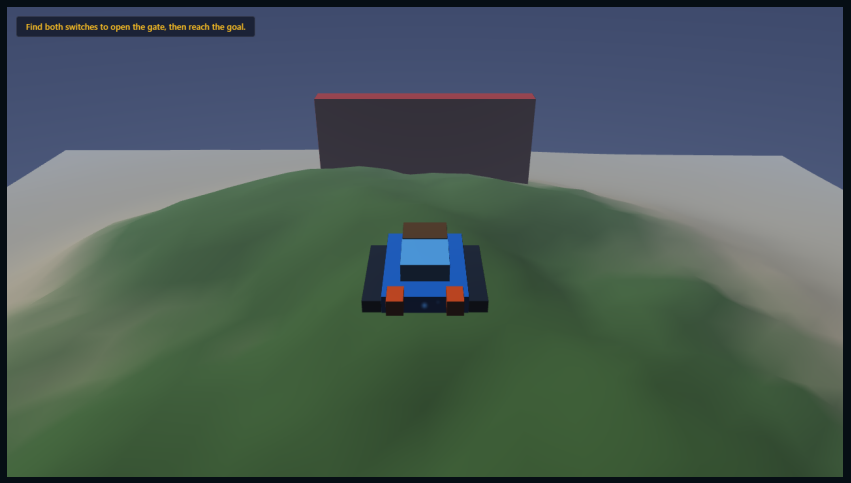
V4 CURRENT

REDESIGN Moved relics to four cardinal sites, built cross routes and distinct landmarks, and corrected hunter loss gating. Camera: Centered a beacon so every destination can be reoriented from mid-field. Gameplay: Three normal native-input runs achieved 4/4, win and Restart; hunter speed/collider

REMAINING Route is compact once landmarks are learned

Temple Switch Puzzle

visual: 3 | clarity: 4 | layout: 4 | audio: 3 | presentation: 3 | uniqueness: 3



BASELINE

PREVIOUS

V3

V4 CURRENT

REDESIGN Built unique west/east switch rooms, thresholds, a central sealed gate and shrine beyond. Camera: Framed both side rooms from the central approach. Gameplay: Two activations now unlock a visibly central destination.

REMAINING Puzzle has limited replay depth
